Get a Grip

Facilitators, what on Earth made you think you were in control?

Free on-line session
Monday 23 August 2021 7:00 – 8:30 pm Melbourne time

I'm not the only facilitator who's been thrown off balance when a carefully planned event begins to unravel. It's scary. It's happened to me a few times over the years, and it wasn't pretty. What about you? Fear of loss of control over situations is up there on the same level of fear as fear of heights, fear of spiders and fear of no wall space ... the latter is a malady suffered only by facilitators!

Join me for this interactive webinar where we will look at managing that awful feeling and help you get a grip by exploring what is and isn't within your control as a facilitator. You may be surprised.

In the webinar we will be:

- examining the complex factors involved in facilitation and what's within your sphere of control and influence
- considering steps to manage interactions before and during the event to minimize potential problems
- taking stock of your own emotional reactions and developing strategies to manage yourself.

A gift for you

Attending participants will receive a copy of Rhonda's 'The Essential Factors Impacting the Success of Facilitation' – part of her "Essentials" series of articles (normally only available to participants of her Facilitation Training Programs.)
