TESTIMONIALS

FB, Community Development - Rhonda is a warm and gifted facilitator who has mastered with humility and generosity the art of facilitation. Her courses are insightful and skilfully designed to embed learnings and deliver on intended outcomes for her worldwide clients. Rhonda is endlessly able to tap into her vast experience, cultural intelligence, and resources to cater for the unique needs of her participants. As a community leader who is running online/physical community sessions, I've deeply benefited from Rhonda's "The Essential Facilitator Online" course which exposed me to many new digital tools, techniques, skills and frameworks that are firmly aligned with the IAF certification requirements. Whatever sector, I cannot recommend Rhonda highly enough to those wanting to navigate this hybrid model of facilitation with confidence and dexterity.

GPY, Water Engineering Consultant - I first met Rhonda in about 2014 and was hugely impressed with her energy and depth, breadth and knowledge of "all things" facilitation. When I found out that she provided facilitation essentials training, I didn't hesitate to sign-up for the two-day course with a great deal of excitement and high expectations. The training exceeded my expectations. I would recommend it to anyone, anywhere, anytime! I have used the techniques she taught our group many times over the last few years, with great results. Rhonda's solid training experience together with her extensive facilitation experience make a powerful combination. She is the ideal person whenever you wish to learn anything about facilitation – essentials or advanced. Nowadays, I try not to miss her webinars.
