## 'ADVANCED' FACILITATION

For experienced facilitators and alumni of Illuma's facilitation training programs.

1-day workshop in Canberra – Saturday 13 April, 2024  
Take a deeper dive into the being and doing of facilitation

### THIS WORKSHOP IS EXPERIENTIAL AND IMMERSIVE

We'll use a range of classic facilitation methods to advance your capabilities as a facilitator by:

- ✓ reflecting on who you are as a facilitator; developing greater self awareness around your presence and how you manage self and others when the going gets tricky ... **the being**
- ✓ exploring themes and variations on classic tools and processes – like taking a melody and changing it structurally to create more variety and interest ... **the doing**

### AN OPPORTUNITY TO ...

- ✓ Learn from a Certified Master Professional Facilitator with a wealth of knowledge and experience to share
- ✓ Learn from and with peers
- ✓ Learn in a relaxed environment
- ✓ Take a deeper dive and and make more meaning from your own facilitation experiences

### ON POINT

- ✓ Program is aligned with the Core Competencies of the International Association of Facilitators.
- ✓ Illuma's Holistic Framework of Facilitation© informs and underpins our approach and all of our facilitation courses, workshops and webinars.
- ✓ Small group size to maximise participation and exploration of what is relevant for you.

*I first met Rhonda in about 2014 and was hugely impressed with her energy and depth, breadth and knowledge of “all things” facilitation. When I found out that she provided facilitation essentials training, I didn't hesitate to sign-up for the two-day course with a great deal of excitement and high expectations. The training exceeded my expectations. I would recommend it to anyone, anywhere, anytime! I have used the techniques she taught our group many times over the last few years, with great results. Rhonda's solid training experience together with her extensive facilitation experience make a powerful combination. She is the ideal person whenever you wish to learn anything about facilitation – essentials or advanced. Nowadays, I try not to miss her webinars. **GPY, Water Engineering Consultant***

*I really enjoyed the course and took an enormous amount from you and the group. You demonstrated a terrific facilitation style, quality questioning that made me think and reflect while I was learning along with so many great take-aways at the end. The learning I took from the examples given and experiences shared was immeasurable. In a nutshell – Wow! **CW, Sports Coach and Sports Industry Consultant***

*This year I committed to to invest In some structured learning around Facilitation. This course made me feel like that was the best professional decision I've taken in ages. A highpoint for me was the practical nature and our demo sessions: preparing with a new colleague, running the session in front of Rhonda and the group and receiving feedback was a very Important learning experience for me. I recommend this course. **KK Independent Facilitator and Coach***
